The Great Invention of the Age!

The Great Invention of the Age!

Steam Supplanted!—Gas Triumphant!!

The first half of the nineteenth century will be recorded as the age of Steam. It has passed, and with it will pass the steam engine with the things that were.

The second half of the century will be known as commencing the age of Gas—an agent destined not only to light but to exhaustrant he world. The age has now commenced, and with it is now introduced the Gas Engine.

Professor John C. F. Salomon, after twenty-six years of close observation upon the experiments of his own and of others in attempts to make the principle of the condensation of carbonic acid gas available as a mechanic motor, has perfected the same; and, having just received letters patent for his "Improved Carbonic Acid Engine," now offers to dispose of rights for the use thereof to the United States government, and to individuals or to companies the rights of States, counties, or cities.

The immense saving of money and labor, and of human lives and suffering, secured by the use of this new motor, will inevitably insure its speedy adoption in all places where steam power is now used, and in thousands of other places where the great expense, bulk, and weight of the steam engine has precluded its use.

This new motor may be applied to all purposes as a propelling agent, from the single-horse power for the cotton-gin to the two thousand horse power for occan steamers, with the expense less than that required by the steam engine, of boilers and furnaces, fuel and firemen, and of bulk and weight—100 tons weight sufficing for the same power of 1,900 tons of the steam engine.

These facts are established by the experimental engine of twenty-five (25) horse power, now "working well" at Cincinnati, as noticed in the following from the Cincinnati in Nonparell." The same gentleman has received another patent for the steering and propelling power."

Also, rights for his well in the successful experiments of this invention were not long since given in the "Nonparell." The same gentleman

Letter from Mr. Royse, of New Albany, Indiana, inventor of a Rodary Plough.

WASHINGTON, January 30, 1852.

Mr. Elder—Sir: I cheerfully avail myself of this opportunity to give you a few brief statements in reference to Professor Salomon's New Machanical Motor, as it is your request, as well as a duty I owe my country. The facts are the following, as near as I now recollect:

as well as a duty I owe my country. The facts are the fol-lowing, as near as I now recollect: I arrived at Cincinnati on the 8th of October, 1851, and on the following day I called to see Professor Salomon's New Mechanical Motor, of which I had read accounts in the pub-lic papers. I was desirous to see the engine, from the fact that I had for some time previous been studying to make the same principle applicable as a motive power to machinery, I was astonished and delighted in witnessing the construc-tion and correction of the arrive. the same principle applicable as a motive power to machinery, I was astonished and delighted in witnessing the construction and operation of the engine. I saw my embodied idea before me more perfect than I had conceived.

I witnessed the operation for near an hour. It was unit form and perfect, and of sufficient power to lift a weight of 12,000 lbs. twenty-five times in a minute. This power was applied to turn the machinery of the shop, and appeared to be equal to steam-engines commonly used in machine-shops. The whole length of this engine is about twelve or fifteen feet, and I suppose its weight might be about five or six tons. The turnace is a small sheet-from pan, the size of my hat, and held about a double-handful of charcoal. The machinery is not more complicated than that of the steam-engine, the principle of construction and operation being the same. This was estimated to be a twenty-five horse-power engine, of which I have given you a brief description.

I am not pecuniarily interested in the success of the invention. I never expected to be called upon to make any statements in reference to it. I have had no previous acquantance with Professor Salomon, and never saw him, to my knowledge, until I met him in this city, on yesterday.

FARM NEAR WASHINGTON FOR SALE. THE subscriber offers for sale his Farm, situated about five miles from Washington, D. C., in Prince George's county, Md. It contains 1783 acres, more than 30 of which is a fine alluvial meadow, preducing a ton and a half of hay to the acre, but which under improved cuttivation would produce at least two tons. Hay sells in the Washington market at from \$14 to \$20 per ton. About four acres of the place is a marsh, covered with several feet in thickness of black earth, the result of decayed vegetation, which, properly composted, is a source from which the upland may be enriched at a reasonable cost. About 60 acres of the farm is woodland—growth principally properly composted, is a source from which the upland may be enriched at a reasonable cost. About 60 acres of the farm is woodland—growth principally oak and chestnut. The land, except the meadow, is undulating, and affords many beautiful sites for building. There are many springs of excellent water on the place, and it is noted for its healthfulness. The soil of the greater part of the upland is a sandy loam, underlaid by clay—in some places, clay predominating. About 75 acres could be divided into small gardening farms, giving nearly an equal quantity of wood and arable land to cach. There is an orchard of 150 peach trees and 60 apple trees on the place, all bearing; also, about two hundred apple trees, ready for grafting. It is well fenced. The buildings are—a log house of four rooms, with a frame addition of three rooms, a meat-house of sun-dried brick, a log kitchen separate from the dwelling, a corn-house, stable, carriage-house, &c. There is a stream of water running through the place, with sufficient water and fall for a small mill. Price, \$40 per acre. Terms—one-third cash; a long credit for the residue, if desired; or, it would be exchanged for real estate in the city of Washington.

FROM WHOSE BASE TO THE TOP STAND IN BOLD RELIEF THE NAMES OF OUR OWN CITIZENS WHO HAVE BEEN RESTORED TO HEALTH BY HAMP-TON'S VEGETABLE TINCTURE, A MEDICINE THAT CURES MORE THAN NINETEEN OUT OF EVERY TWENTY WHO TRY IT.

STILL another witness for "Hampton's Vegetable Time ture."—This certificate is from one of our largest and most enterprising farmers—the owner of those splendid oxen exhibited at the late Agricultural Fair, and who, in Person, did the ploughing, with the same, that took the

person, sil the ploughing, with the same, that took the premium. We mention this, as, before Mr. Horne took the premium. He mention this, as, before Mr. Horne took the Tincture, his condition was such as to despair of even visiting the Fair, much less taking such a laborious part as he sid, to the astonishment of those who had seen his state a short time before. BALTIMORE, Feb. 4, 1852.

Mexers. Mortimer & Moubray—Gents: Having been affileted with Chronic Inflammatory Rheumatism for some time, in its worst form, I tried every remedy that came within my reach, without any success; in fact, my sufferings increased with every new remedy I tried, until I was scarcely able to walk, from the dreadful pains and swelling in my limbs. I had also an ulcer formed on my right wrist, which cave me intense pain.

scarcely able to walk, from the dreadful pains and swelling in my limbs. I had also an ulcer formed on my right wrist, which gave me intense pain.

When in this condition, Mr. Scott, Conductor on the Susquehanna Railroad, with several others, called my attention to the many wonderful cures made by Hampton's Vegetable Tincture. I determined to give it a trial, as a last resort. You well remember my sufferings at the time I got the Tincture from you—they were almost past endurance. I am happy now to inform you, that in a short time after taking it, I was relieved from pain, and could walk without difficulty, and in about four weeks I was enabled to take part in the ploughing match at our late Agricultural Fair. The ulcer on my wrist is now entirely cured, and I am in the enjoyment of the very best health, with no symptoms of my old disease; all of which I feel bound to say I owe to the great healing and restorative powers of Hampton's Vegetable Tincture.

My great confidence in it has induced me to recommend it to others, and I have also seen its good effects in a number of cases. My little daughter had been in bad health for some time: no medicine seemed to reach her case, or to do her any good, until I gave her this Tincture of Hampton's, which soon restored her to robust health. I do therefore cheerfully bear my testimony in favor of this valuable medicine, and I wish you to send me a dozen bottles, that I may always have it at hand. Yours, respectfully,

Mr. J. E. Boush—Dear sir: While I am, in general, opposed to patent medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family: and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

Greater weight of Testimony cannot be given. Creater weight of Leximony cannot be given.

Can any unprejudiced mind in the world ask stronger testimony or more convincing proof of the great restorative and curative powers of Hampton's Vegetable Tincture than given below? The writer is one of our mest highly e-teemed citizens, a man of integrity, and, it is extensively known, has been for a long time suffering under disease; his altered appearance now is a subject of remark, and gives additional testimony and weight to the certificate below. He is also the on of the old Doctor Dunan, whose great skill as a physician is well known to most of the oldest inhabitants of this city.

Baltimore, Feb. 9, 1852.

Mozers Mortimer & Monobray—Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampian's Vegetable Tincture. Some time-during last November I was taken with a very bad and serious cough. I was advised to take Cod Liver Oil, and did so, but, getting no better, I was induced to try your Time-ture. I got one bottle, and, before I had used it, all my cough left me. Permit me also to state, that for the last fifteen years I have suffered very much from Jenie Rheumatism and Vertigo, confining me, at times, to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me yours, very respectfully.

NAVY YARD, March 11, 1852. MESSRS. EDITORS: Your valuable paper comes o us daily, filled to overflowing with items of in-

terest to all. The "Boone Rifle Corps" have selected a fine, commodious room for their armory, over the Maryland Hotel, which is now being handsomely fitted up for the reception of their arms and equipments; and now, while I am writing, the beautiful emblems of our nation-the stars and stripes-are proudly floating over Armory Hall: which colors the Boone Rifles will ever sustain

"Till the last link is broken." The uniform adopted by this company consists of blue cloth frock-coat and pants, and the style of cap lately introduced for the army. They hope to make their first appearance on the lst of May. Mr. Perham, the proprietor, of the Seven-Mile Mirror," now on exhibition at Odd-Fellows' Hall, has kindly volunteered to give hem a benefit on Saturday evening next.

The excitement caused by the spiritual knockngs continues unabated, and hundreds of perons may be nightly seen in and contiguous to

Affairs at Georgetown.

GEORGETOWN, March 11-12 m. The Baltimore Annual Conference of the Methdist Protestent Church met this morning, at 9 clock, in the Congress-street Church, and opened with regular services by the President, Dr. Reese, who made a very impressive address, in which he alluded to the revivals during the past year, and the increasing favor with which the ecclesiastical polity of the church is regarded by many intelligent members of the Methodist Episcopal Church, and the loss sustained by this Conference in the death of two of its valuable ministers. The Rev. J. J. Murry announced

the death of the Rev. R. Atkinson. A motion was made and carried to appoint a

ommittee on obituaries. A letter was read from the Rev. J. Varden, who is absent from domestic affliction, asking to remain in Cincinnati the present year. The Rev. Mr. Rosser, of the Methodist Episco-

al Church South, and the Rev. Mr. Butler, of the Lutheran Church, were introduced and received by the Conference. The Conference then went into a discussion in reference to the best node of conducting the examination of official character.

There is a general attendance, and every indicaon of an interesting and harmonious session. The following are the appointments for preach-Methodist Protestant Church, Georgetown, Rev.
